Best Practices

Title

Your page title is shown on search engine results pages, browser tabs and when shared across social media platforms. The title is taken into consideration by search engines when determining your page ranking.

Consider the following best practices

- Ensure the title informs the user of what is on the page in a clear and concise manner
- Choose a main keyword that is relevant to your page
- Include your keyword at the beginning of your title
- Avoid repeating, listing or using different variations of your keyword

Description

Your description should inform the user of what they are receiving in return for their data. This also gives your content more viewability in organic search rankings.

Consider the following best practices

- Include your keyword in the text
- Keep it short, sweet, and to the point
- Make your copy as relevant as possible

Video

Video is an excellent way of conveying information in an engaging way.

Consider the following best practices:

- Ensure the quality of the video is high
- Keep the video as short as possible to encourage more viewers to watch it
- Put the most important information at the beginning, as it will be seen by more viewers
