The screenshot shows the in-cosmetics Asia website interface. At the top, there's a navigation bar with 'Cosmetics design-asia.com', 'Breaking News on Cosmetics Formulation & Packaging in Asia-Pacific', and 'EU edition | US edition'. A large banner features a woman's face and the text 'CLICK HERE FOR MORE INFORMATION'. Below the banner are sections for 'TOP HEADLINES', 'BRAND PROFILE', and 'SPOTLIGHT'. The main content area includes articles such as 'Imagine Labs part II: Encouraging market education on DNA-based skin care', 'Sinar Mas Cepsa starts production in Indonesia', and 'Chinese selective spending habits part I: What the economy means for beauty'. A sidebar on the right contains 'MOST POPULAR NEWS', social media links, and a 'KEY INDUSTRY EVENTS' section. This sidebar section highlights the 'in-cosmetics Asia' event in Bangkok, scheduled for 31-Oct-2017, with a 'read more' link and an 'Access all events listing' button. A large blue arrow points from the 'read more' link in the sidebar to the event details box on the left page.
