Product categories

Choose up to 2 Product categories (see page 6)

Article Structure

- The article should be **between 800 and 1500 words in length** (we recommend over 1000 words)
- You should include **multimedia content** to encourage reader engagement (images, videos, podcasts, infographics) - we recommend that you include **at least two pieces of** multimedia content

Multimedia Format

- Photographs, line drawings, and other illustrations may be in colour or black and white
- Electronic images should be 72 DPI
- Images may be in the following formats (by order of preference): EPS, PNG or JPEG
- Colours should be set to RGB

Article Content

The article and the links it contains should be **non-commercial in tone** and should **not be blatantly self-promotional**. We reserve the right to remove, refuse, or re-write content that we feel does not meet this requirement.

The **content must be unique and not published anywhere else online**.

Please note that re-publishing is permitted across William Reed brands as it is a great way for brands to increase reach and brand awareness to a highly qualified audience. Due to SEO rules, traffic from search engines will be mainly to only one of the sites, however, the content on the other sites will still be exposed to the audience via newsletter and website promotion.

Any reference to third party content must be approved by all third parties.

The article **must not be aggressive in tone or derogatory towards competitors** or other parties.

The article **should not read as a ‘press release’ or ‘news piece’**.

Use of **acronyms should follow our editorial guidelines**. Unless an acronym common knowledge within the industry (e.g: FDA, US, EU...), the term must be spelled entirely the first time with the acronym in parenthesis. I.e “Consumption of a sugar-sweetened drink on a daily basis may be associated with an increased risk of developing non-alcoholic fatty liver disease (NAFLD), say researchers....”. Once defined, the term NAFLD can be used freely thereafter.

Trademark, copyright, registration marks and related symbols will not be published in the article.

Commercial rights to all copyright material – including photos, videos and audio elements must be secured by the advertiser from the copyright holder before the material is used in branded content or fall under fair use.

Guidelines for Article Creation

Content Best Practices

Traffic techniques

Stimulate interest and immediately connect with your target audience

- Consider using additional campaigns, such as a Mailshot, to stimulate interest and connect with your target audience

SEO techniques

Tap into qualified leads outside our core audience

- The content **MUST be completely unique** and not published anywhere else online, otherwise it will not show up in Google search results
- Ensure that the **title reflects what someone would type into a search engine**, as this will be the only traffic driver once website and newsletter promotion ends

Captivating techniques

Grab the attention of readers

- Think about what topics are trending
- Use appealing and relevant multimedia content (infographics, videos, charts etc.)
- Use colour in your illustrations

Quality techniques

Showcase your expertise

- Use insightful, educational and thought-provoking content - this will ensure higher reader engagement and positive association with your brand
- Your priority should be to educate and inform, to demonstrate true thought leadership
- Your company name / a product name may be mentioned within the article – but this should not be used repetitively - remember that your company name is already clearly associated with the content

Branding techniques

Stay true to your brand and followers

- Ensure the content is consistent with your brand
- Also ensure your content is relevant to the focus of the hosting website
