Guidelines for Article Creation

Content Best Practice

Maximising SEO

Give your article the best chance of being discoverable outside of the website's audience

- The content **MUST be completely unique** and not published anywhere else online, otherwise it will not show up in Google search results
- Ensure that the **title reflects what someone would type into a search engine**, as this will be the only traffic driver once website and newsletter promotion ends

Capturing the attention of your target audience

Grab the attention of readers

- Think about what topics are trending
- Use appealing and relevant multimedia content (infographics, videos, charts etc.)

Demonstrate the quality of your expertise

Showcase your leadership in your chosen topic

- Use insightful, educational and thought-provoking content - this will ensure higher reader engagement and positive association with your brand
- Your priority should be to educate and inform, to demonstrate true thought leadership
- Your company name / a product name may be mentioned within the article – but this should not be used repetitively - remember that your company name is already clearly associated with the content

Harness the potential of the content for your brand

Stay true to your brand

- Ensure the content is consistent with your brand values
- Also ensure your content is relevant to the focus of the hosting website
